

## RADIA-31 Tying machine

- String in coil
- Knot with loop
- No clip
- Handwork aspect
- High production
- Easy cleaning

# RADIA-31

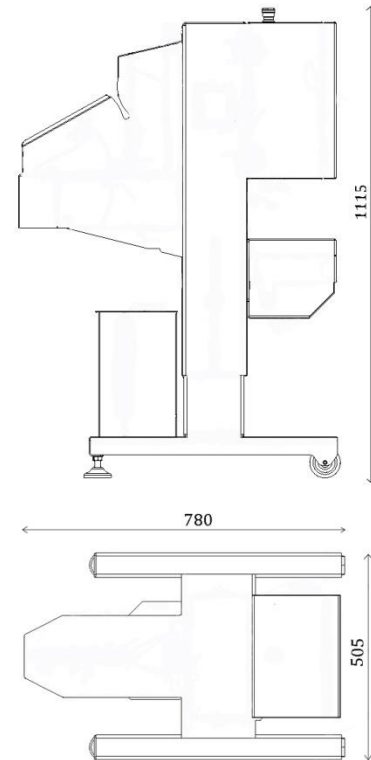

## → TECHNICAL DATA:

The new tying-off machines RADIA-31 series ties a wide range of sausages, both in natural and artificial casings. The result is a hand-made aspect of the sausage, with a strong knot with loop to hang the piece.

The tension of the knot is adjustable, it uses a string in coil and accepts different thicknesses, as well various compositions (cotton, nylon, polyester, polypropylene, etc.) The machine has a great capacity to tie all kinds of sausages, with grammage of pieces of up to 3 kg and without limit of diameter.

A touch screen has been incorporated that facilitates the adjustments for each type of binding as well as to warn of possible incidents and maintenance tasks.

Fully safe for the operator in compliance with the European CE safety regulations. Constructed in stainless steel and appropriate materials, it is designed for easy cleaning after use.

Connection	230 V and compressed air to 6 bar
Dimension	505x780x1115mm (wide-long-high)
Weight	65 KG
Working rate	30 knot/minute
